What happy moms say about our product...

"The Bungee Baby Bouncer is the most delightful and essential baby item I have yet to encounter! From day one – at 3 months when I first put him in it – it could put a big, bright smile on my colicky fellow's face. And today, at 5 months, he can bounce gleefully for over an hour per stretch!! All of my friends' babies have tried it out on play date visits and have all subsequently bought their own. There is not a child yet who doesn't love it. What an ingenious, creative solution for our wee kiddos. I cannot begin to thank you enough for all the opportunities you have given me to read the paper, cook dinner, sweep the floor, change my clothes, and all the other "luxuries" of life that I had begun to feel I might never again accomplish."

Your invention is a Godsend!!

"Ellen"

"I love this, and my son does too. Much safer than the other bouncers, he can't pinch his fingers. Very easy and compact...you can pack it in a suitcase without taking up much room at all!"

Cathy, California

"I absolutely love my Bungee Baby Bouncer. I have tried several other baby bouncers, none have impressed me like yours. Other models are bulky and awkward to assemble, or the seat is too large for my baby to sit in comfortably so he flops over to one side. The Bungee Baby Bouncer is easy to assemble, convenient to store, and a snap to adjust as my baby grows. The seat easily adjusts to fit my baby's size – he is comfortably supported at all times. My son began using the bouncer when he was only 3 months old. No other bouncer would fit his body securely enough to allow him to do that at such a young age. I have thoroughly enjoyed using my bouncer and recommend it to everyone. Thank you for such a wonderful product."

Rachel, Logan UT

"I have a five-year-old granddaughter, Chaya, who is severely handicapped with cerebral palsy. I saw a newspaper ad for the Bungee Baby Bouncer, and was intrigued by the unique belly band concept. I can truly say that the new bouncer was a hit. Chaya loves being in the doorway between the kitchen and family room, standing up and actually being able to look at her siblings eye-to-eye. And best of all, she is able to move her legs and body, spin around, and experience the sensation of moving her body as she desires. She seems to be getting better at manipulating her body with each day, and even her head control is improving. I'm very grateful that we were able to come up with one more tool to help our little granddaughter enjoy life and help achieve her full potential, whatever that may be."

JoEllen, Provo UT

"We think this is a great product. It is one of our seven month old's favorite activities. Thank you for creating such a wonderful bouncer."

Dana, Raymore MO

"I wanted to let you know how much our baby boy, Isaac, loves your Bungee Baby Bouncer. Starting at the age of about three months, we would give him a nightly bouncing session about an hour before his bedtime. He figured it out and loved it from his very first try. He seems to enjoy it so much that left to his own, he would continue to jump past the point of exhaustion. His mom and I both look forward to his nightly bouncing sessions as much as he does. Thank you! Thank you!!!!"

Eric, New York

"This was a wonderful product for our son with low muscle tone. The other products that are similar to this in the stores didn't support him at all. This gave him all the right support. Would recommend to anyone!"

"I love this product. I got it for my very active first born and she loved it. Now I can't wait till my newest arrival gets to use it. It looks a little strange but the kids love it!"

Leslie, Austin TX

"With our son becoming active and wanting to 'jump' all the time, we thought we would give the bungee jumper a try. Thinking it would take some time to get him used to it, we were mistaken...he LOVED it from the moment we hooked him up!! He is 5.5 months and literally jumping with JOY! Thanks OneStepAhead for making SAFE and QUALITY products."

"Kathryn"

"This has been the 2nd best purchase that my husband and I made for our son, Mark. (The best purchase was the motion/sound monitor we bought for his crib – it saved us many nights of worry about him not breathing). Mark was big enough for this bouncer and had good neck support around 4.5 months and he absolutely loves this almost as much as we love watching him laugh and jump in it. I credit it with giving him great muscle tone in his legs and getting him on the road to crawling by 7 months."

Claire, Bangkok, Thailand

"My baby loves both "standing" and bouncing. Your product has been perfect for him. He can "stand" to his heart's content, experimenting with balance and coordination. And he can jump and jump and jump. It's been a joy watching his coordination develop. Freeing up my hands from several hours a day of "standing" the baby has been nice too."

Karen, WA

"This toy is awesome! My son Sean is 6 months old. He's had the Bungee Bouncer for 2 months now and still can't get enough of it. He's a big active boy and jumps for hours! If you buy nothing else buy this!"

"Danielle"

I received a call from Lauren Cross, wanting to order a bouncer. When I asked her where she heard about our product, she stated that she had twins and already had one. I asked her how long she had the first bouncer. She told me 5 months. I asked her how old the babies were. She said 1 year old. I asked why she was ordering a second now. Weren't the babies about ready to be through with the bouncer. She laughed and said, "Oh, I have two bouncers – one is another kind. I put the babies in them, alternating them so they were in the other one every other time. Now the babies are old enough that they fight over your bouncer. I am just giving up and letting them have their own way." When I asked if they weren't about ready to be through using the bouncer, she replied that she had put it away, but the babies went and got it out again. They beg to go in the bouncer.

We have many repeat orders from people who are so happy with them, they use the bouncer for all the baby gifts they give.

When Lisa Weatherill called to order her 7th bouncer, she told me that her little girl was so athletic and graceful, she felt the bouncer contributed a great deal to her abilities. She always gives her friends bouncers when they have new babies.

Ellen Jenkins, Bungee Baby Bouncer
